

KYRGYZ REPUBLIC

MINISTRY OF EMERGENCY SITUATIONS OF THE KYRGYZ REPUBLIC

The National Platform
of the Kyrgyz Republic
on Disaster Risk Reduction

For the good of Kyrgyzstan!

The Delegation of the Kyrgyz Republic welcomes all the participants and guests of the Asian Conference that takes place under the Third UN World Conference on Disaster Risk Reduction, and expresses its sincere appreciation and gratitude to the hosts of this global forum and, certainly, to the Government and People of Japan for their warm and hearty reception in this wonderful country.

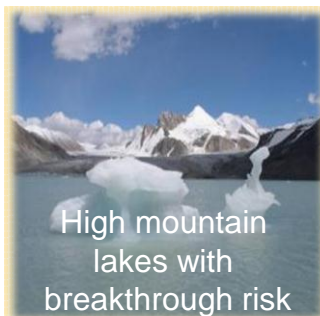

With the population of **5.8 mln. people of more than 100 nationalities**, **Kyrgyzstan** is known as a country of great mountains, picturesque high-mountains rivers and lakes, magnificent waterfalls, healing springs and green generous valleys.

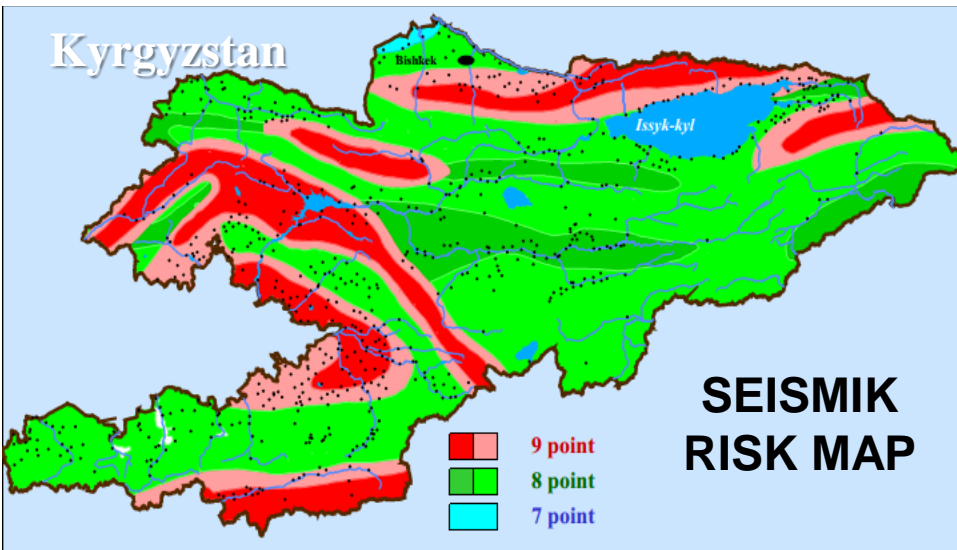

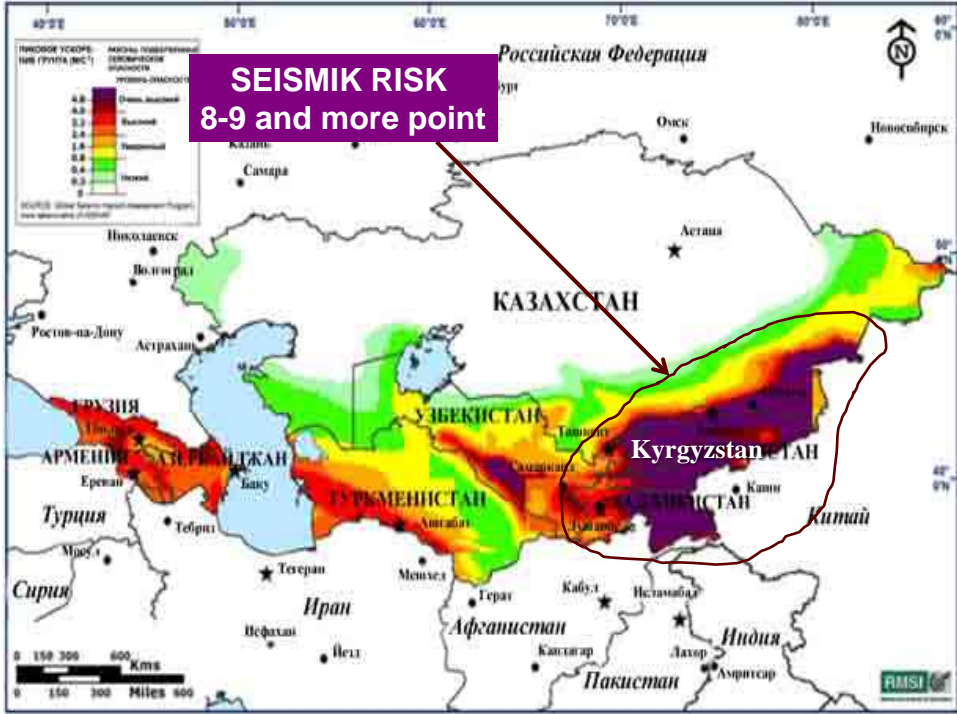

Over 90% of the territory of the Kyrgyz Republic are located more than 1,500 m. above the sea level

MOST DANGEROUS NATURAL PROCESSES

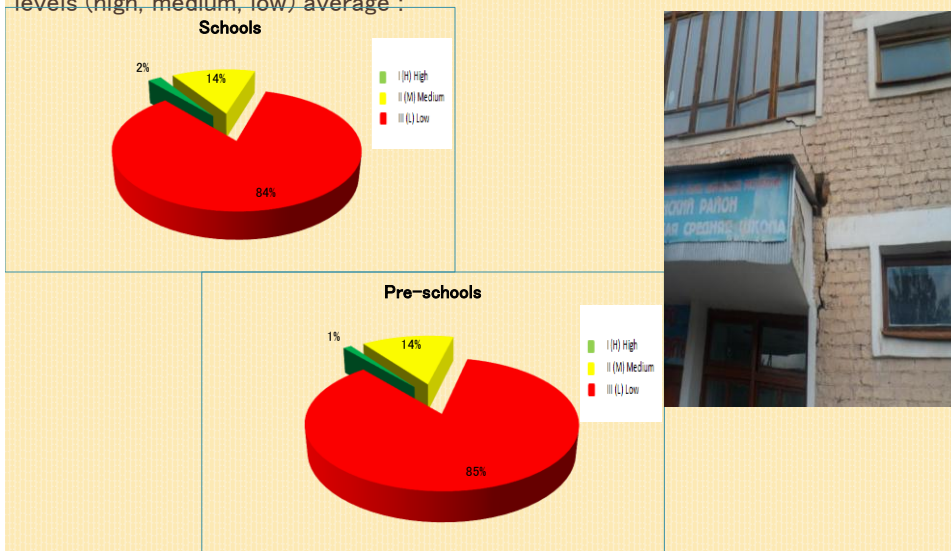

Majority of the big cities and rural settlements of the country are located within area of the potential earthquake centers, which intensity can reach **9 and more points according to MSK-64.**

About 75% of the population of the republic resides there.

RESULTS OF SAFETY ASSESSMENT OF SCHOOLS, PRESCHOOLS

General safety assessment for schools and pre-schools by three levels (high, medium, low) average :

Budget financing on prevention and liquidation of emergency situations is **6 million \$ USA**

Annual direct damage from emergency situations **30 – 35 million \$ USA**

Approx. **200** emergencies annually

The real scale of damage, losses and needs for recovering and reconstructing everything that suffered from disasters is **actually significantly larger**.

Financial and material losses from emergency situations exceed real possibilities of system of protection the population **more than in 5 times**.

At the current stage, having headed towards sustainable development, Kyrgyzstan considers disaster risks reduction as one of the crucial state functions, a component to ensuring national security of the Kyrgyz Republic.

Kyrgyzstan has achieved significant progress in implementing Hyogo Framework for Action 2005-2015 on the key priorities in building resilience of Nations and Communities to Disasters.

PRIORITY 1. INTEGRATE DISASTER RISK REDUCTION IN SUSTAINABILITY, POVERTY REDUCTION AND ADAPTATION TO CLIMATE CHANGE PLANNING

Perfection of laws, legal and methodological grounds of Civil Protection with a view to ensure sustainability subject to disaster risk reduction

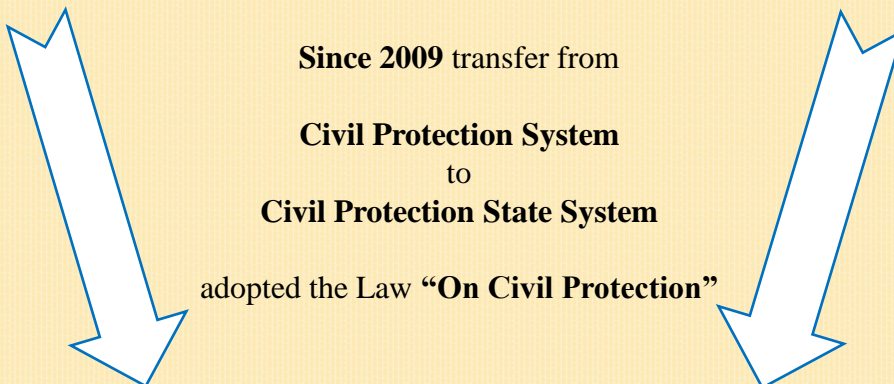

Integration of DRR into national sustainability strategies, policies, plans and programs

Single state system for emergency prevention and response (SSSEPR)

Civil protection

**Civil Protection State System of
 the Kyrgyz Republic**

The National Platform for Disaster Risk Management of the Kyrgyz Republic was created in 2011.

**Global Platform
 for Disaster Risk Reduction**
 Third Session, Geneva, Switzerland
 8 - 13 May 2011
