Emergency Support Function : ESF

Awareness & Collaborate

✓ Raising awareness on disaster risk management to stakeholders who place different emphasis on disasters. Can't be truly integrated.

✓ Encourage the preparation of an operating manual to be a tool for the stakeholders to work more easily.

4. Current Progress of Sendai Framework for DRR

- One of the seven global targets is Substantially increase the number of countries with **national and local disaster risk reduction strategies** by 2020
 - The new National strategies for DRR
 - Encourage every part of society at every level to develop the plan for DRR

5. Research Plan

Title	Development for National Disaster Risk Management Plan in Thailand
Specific Aims	<ul style="list-style-type: none">The aim of the proposed research is to study the disaster risk management and disaster management plan of Japan, especially the part of Disaster Risk Reduction for local level. That is the important strategy to reduce loss and damage.
Expected result	<ul style="list-style-type: none">The expected results are the concept of development the National Disaster Risk Management Plan which encourage stakeholder to be aware, understand and implement DRR by doing DRM Plan for their level.

The background is a gradient of blue, ranging from a darker shade at the top and bottom to a lighter shade in the center. It is decorated with various geometric elements: thin, light blue lines of varying lengths and orientations; semi-transparent, rounded rectangular shapes in different shades of blue; and small, thin-lined circles. The overall aesthetic is modern and minimalist.

THANK YOU
