

**PREPARATION FOR THE 5<sup>th</sup> ASIAN  
MINISTERIAL CONFERENCE ON  
DISASTER RISK REDUCTION (AMCDRR)**

**BINTANG SUSMANTO  
INSPECTOR GENERAL  
NATIONAL AGENCY FOR DISASTER MANAGEMENT  
REPUBLIC OF INDONESIA**

**ASIAN CONFERENCE ON DISASTER REDUCTION  
COLOMBO, 13-15 JUNE 2011**

**5<sup>TH</sup> AMCDRR**

Host Country : Indonesia  
Organizer : National Agency for Disaster Management  
Support : UNISDR, World Bank, Gajah Mada University  
Date : 15 – 19 October 2012  
Location : Yogyakarta  
Venue : Yogya Expo Center (JEC)  
Theme : Strengthening Local Capacity for  
Disaster Risk Reduction

## Participants

- ❑ It is estimated the conference will be participated by 600-700 people (international participant) from 65 countries.
- ❑ Domestic participants come from the Disaster Management Agencies throughout the country (national participant).

*Proposed Theme:*

## **Strengthening Local Capacity in Disaster Risk Reduction**

*follow-up and implementation of 3<sup>rd</sup> and 4<sup>th</sup> AMCDRR, and in-line with 1<sup>st</sup> and 2<sup>nd</sup> AMCDRR, particularly HFA (Hyogo Framework for Action) Priority 5 “Strengthen disaster preparedness for effective response at all levels”.*

### **1<sup>st</sup> Sub-theme:**

#### **Mainstreaming Community-based Disaster Risk Reduction (CB-DRR) into Development**

##### ***Rationale:***

- There have been numerous CB-DRR initiatives developed by government and non-government actors, but few examples on how these initiatives could be mainstreamed into regular government development plans.
- It is necessary to look for strategies and ways to integrate CB-DRR into district/city development plans, partly as part of the efforts to ensure its sustainability.

### **2<sup>nd</sup> Sub-theme:**

#### **Local-level Risk Analysis and Management**

##### ***Rationale:***

- To date, efforts to analyze and manage disaster risks have mostly been focused at the national, provincial, or at the most the district/city level.
- To strengthen resilience at the lowest level, there needs to be strategies and procedures to conduct risk analysis and management at the community level.
- Active participation of the communities will ensure actual preparedness and resilience at the grassroots level.

### **3<sup>rd</sup> Sub-theme:**

#### **Local-level Risk Financing**

##### **Rationale:**

- Risk transfer is one of the way to deal with disaster risks,
- Communities at the lowest level are usually unaware of risk transfer mechanism such as disaster insurance
- It would be interesting to hear from the experiences of participating countries and together look for a common strategy to develop risk transfer mechanism at the community level.

### **4<sup>th</sup> Sub-theme:**

#### **Institutionalization of CB-DRR and CCA at the Local-level**

##### **Rationale:**

- As operationalization of discussions at 3<sup>rd</sup> and 4<sup>th</sup> AMCDRR, it is necessary to search for strategies and ways to institutionalize CB-DRR (Community-based Disaster Risk Reduction) and CCA (Climate Change Adaptation) at the community level.
- Through this sub-theme participants will share their experiences and know-how on the models of CB-DRR and CCA institutionalization they develop in their countries.

### 5<sup>th</sup> Sub-theme:

#### Promoting Public-Private Partnership at the Local Level

#### Rationale:

- This is the follow-up of discussion in 3<sup>rd</sup> AMCDRR in Kuala Lumpur. Participating countries may want to share their progresses and the challenges they met in promoting public-private partnership for disaster risk reduction at the local level, from the community level to the district/city level.

### Venue 5<sup>th</sup> AMCDRR : Grha Sabha Pramana, Gadjah Mada University Yogyakarta, INDONESIA

**THANK YOU (TERIMA KASIH)**
