## **2.1. Natural Hazards likely to affect the country**

Armenia is one of the most disaster prone countries in the world (except the sea disasters

number of victims was more than anywhere else. 17% funds of dwellings

### **3.4 Survey for Seismic Protection (SSP)**

Survey for Seismic Protection (SSP) was founded under the Government of the Republic of Armenia on July 17, 1991. Armenian SSP is under the Ministry of Emergency Situation.

The basic goal of SSP is Seismic Risk Reduction in Armenia:

Public awareness, people education and training

Early warning and notification

Partnership establishment, involving public and private organizations

## 4. Disaster

14. Lack of comprehensive understanding of DRR in the development perspective.

15. Need of multi-stakeholder partnership on DRR.

The national platform states that DRR implies joined actions by the Government, state bodies, communities, civil society, scientific organizations, private sector, as well as the mass media.

DRR NP in Armenia is a structure elaborated and administered by the country with the involvement of stakeholders. It aims to promote DRR implementation at all levels, coordinate, analyze and

Together with the UNDP, MES of RA developed a national disaster risk reduction strategy based on the Hyogo Framework of Action, a 10-year,
